

## PRESENTERS

### **The Hon Justice Ellen France, President, Court of Appeal, Wellington**

Justice Ellen France has an LLB (Hons) from Auckland University and an LLM from Queen's University, Ontario. She was appointed to the High Court in 2002 and to the Court of Appeal in 2006. Justice Ellen France was made President of the Court of Appeal with effect from 1 September 2014.

### **The Hon Justice Forrie Miller, Court of Appeal, Wellington**

Justice Forrie Miller joined Chapman Tripp Wellington in 1984, becoming a partner in 1987. He was appointed to the High Court Bench in 2004 and to the Court of Appeal in 2013.

### **David Goddard QC, Wellington**

David has a wide ranging litigation practice with an emphasis on appellate advocacy. He has a longstanding interest in using technology in court.

### **Bruce Scott, Partner, Chapman Tripp, Wellington**

Bruce leads Chapman Tripp's Wellington litigation practice, specialising in commercial, insurance and public law litigation. He has been on a steep learning curve on the use of technology in court and its implications for clients.

### **Bronwyn McKinlay, Senior Associate, Bell Gully, Auckland**

Bronwyn has over 20 years of litigation experience advising clients on judicial review, injunctions, contracts, franchising, shareholdings, misrepresentation, fraud and breach of duty. She has a detailed knowledge of legal technology.

*The statements and conclusions contained in this booklet are those of the author(s) only and not those of the New Zealand Law Society. This booklet has been prepared for the purpose of a Continuing Legal Education course. It is not intended to be a comprehensive statement of the law or practice, and should not be relied upon as such. If advice on the law is required, it should be sought on a formal, professional basis.*

Cover and text stocks used in this publication are from Forestry Stewardship Council certified mills, manufactured under the environmentally responsible paper manufactured environmental management system ISO 14001, using pulp from well managed forests and other controlled sources.
