

PRESENTER

Dr A Sathyendran, NZ Mobile Forensics Ltd, Auckland

Sathy is an Independent Telecommunication Specialist with over two decades of experience in cell phone technologies, policy and regulation. He has a PhD in Electrical & Electronic Engineering (The University of Auckland), specialising in wireless technologies and cellular signal propagation. Sathy has significant experience in working on court cases and Commerce Commission investigations. At Vodafone he worked closely with both in-house and external legal teams, providing expert technical analysis and advice across a range of legal issues for court cases and regulatory reviews. As an independent consultant, Sathy has used mobile call and location analysis to corroborate or disprove evidence for both criminal and civil cases.

CONTENTS
