

## PRESENTERS

### **Thomas Gibbons, Thomas Gibbons Law, Hamilton**

Thomas is a specialist property and resource management lawyer, dealing with complex issues in subdivisions, unit titles, land development, and infrastructure. He is often called upon to provide expert opinions for other lawyers, and has given expert evidence in the High Court on a number of occasions. Thomas works with a range of clients, including developers, local authorities, landowners, body corporates, iwi groups, and many others. He is known for combining a high level of technical knowledge with practical and strategic advice.

### **Graham Petrie, Babbage Consultants Ltd, Auckland**

Graham has led the land surveying team at Babbage for the past six years. Prior to this he was a manager for McKay Knarston and project lead for Envivo. Graham's technical skills cover a wide range of surveying disciplines as well as the entire land development and subdivision process.

*The statements and conclusions contained in this presentation are those of the author(s) only and not those of the New Zealand Law Society. This presentation has been prepared for the purpose of a Continuing Legal Education course. It is not intended to be a comprehensive statement of the law or practice, and should not be relied upon as such. If advice on the law is required, it should be sought on a formal, professional basis.*
