

PRESENTER

Michael Wigley, Wigley and Company, Wellington

Michael's clients include many IT companies, telcos and ICT customers. He has a focus on complex disputed issues, risk, regulation including competition, and public law. Michael has considerable experience over 15 years in advising on cybersecurity and privacy issues faced by companies and the public sector, as well as extensive involvement in advising on directors' liabilities and duties, a major consideration in relation to cybersecurity, ICT and disruptive technologies. Michael is based in Auckland and Wellington, and he often advises clients as part of a multi-disciplinary team, such as technical, media, and economics.
