

PRESENTERS

Richard Gibson, Impac, Wellington

Richard is one of the original founders of Impac, New Zealand's leading provider of safety consulting and training solutions, and is recognised as one of NZ's leading experts in safety solutions (with a very pragmatic risk based approach). He completed his MA examining Attitudes towards Safety and their impact on accident rates and has worked as an ergonomist, trainer, safety consultant and senior manager. Richard now heads Impac's IT division which provides safety information management solutions to enable organisations to manage their risks and legislative requirements in a cost effective manner.

Tom Reeves, Impac, Wellington

Tom Reeves joined Impac Services as a founding director in 1999. Tom has had 19 years practicing H&S in a wide range of industries including oil and gas exploration and production, underground and surface mining, electricity, forestry, dairy, pulp and paper, construction, infrastructure, heavy and light industrial manufacturing, and food manufacturing to name a few.
