

PRESENTERS

His Honour Judge Jackson, Christchurch

His Honour has been an Environment Judge since 1996, based in Christchurch and working principally in the South Island.

He is an author of occasional papers on resource management issues, and an interested student of resource economics in general and irrational models in particular.

Claire Kirman, Russell McVeagh, Auckland

A senior solicitor, Claire has acted as counsel in a number of Environment Court cases where economic evidence has been utilised. She has a PhD in environmental accounting and reporting from the UK and has lectured at the Business School, University of Auckland. She is an Affiliate of the Centre for Business and Sustainable Development at Massey University and the author of a number of articles on resource management in New Zealand.

Dr Basil Sharp, Associate Professor, Dept of Economics, University of Auckland

Basil has a PhD in resource and environmental economics from the University of Wisconsin-Madison. His research has centred on the use of economic instruments in environmental policy, the application of non-market valuation techniques, and governance as it relates to the natural environment and has appeared in leading international journals. Basil has been an active participant in contemporary issues of resource management and has appeared as an expert witness before special tribunals and the Environment Court.

Christian Whata, Russell McVeagh, Auckland

A partner in the Environment and Resource Management Team and a Masters graduate from Cambridge University, Christian has considerable experience in the Environment Court, High Court, Court of Appeal and Privy Council dealing with the RMA matters. He was counsel on recent “retail” commercial strategy cases in Auckland City, Palmerston North, North Shore, Gisborne, Hamilton, Lower Hutt, Christchurch, Waitakere, Papakura and Manukau.
