

PRESENTERS/AUTHORS

Neil Campbell QC, Barrister, Auckland

Neil acts for and advises clients on a wide range of civil and commercial disputes, and appears regularly in the High Court and appellate courts. He has advised and acted on numerous material damage and business interruption claims arising from the Canterbury earthquakes. Neil was previously an Associate Professor at the University of Auckland. His research on insurance law, company law and land law has been published in leading texts, as well as in the Cambridge Law Journal, Lloyd's Maritime and Commercial Law Quarterly, the Insurance Law Journal, and the New Zealand Law Review.

Peter Woods, Anthony Harper, Christchurch

Peter is the head of Anthony Harper's Litigation Team. He has been in practice since 1985 including extensive experience in the United Kingdom, where he obtained his LLM. Peter has represented numerous commercial property owners in Canterbury and Marlborough in respect of material damage and business interruption insurance claims arising from earthquake damage. He has also conducted numerous residential property insurance claims for earthquake damage.

PRESENTER

Storm McVay, Crombie Lockwood, Christchurch

Storm has experience in advising professional and corporate clients on all aspects of property and liability risk and insurance. She has also been extensively engaged in earthquake claims management, advocacy and settlement on behalf of a wide range of corporate and private Christchurch property owners.

The statements and conclusions contained in this booklet are those of the author(s) only and not those of the New Zealand Law Society. This booklet has been prepared for the purpose of a Continuing Legal Education course. It is not intended to be a comprehensive statement of the law or practice, and should not be relied upon as such. If advice on the law is required, it should be sought on a formal, professional basis.

Cover and text stocks used in this publication are from Forestry Stewardship Council certified mills, manufactured under the environmentally responsible paper manufactured environmental management system ISO 14001, using pulp from well managed forests and other controlled sources.
