

## **Perpetual Trust**

**120,000 tonnes/annum - Gisborne client for over 30 yrs**

"PF Olsen and Company Limited has managed the harvesting of Nuhaka Farm Forestry Fund's forest since logging began in 1999. The fund has harvested approx 280,000 tonnes to date. Olsens management services have encompassed the entire harvesting operation. Nuhaka is a publicly listed forestry fund and Perpetual Trust as trustee requires a high level of transparency in the business. Olsens have provided this, primarily through regular and thorough dialogue, contractor management, the quality of their reporting and their log checking and log auditing systems."
