## Section 2

The game is the Rangers versus Aces, on Diamond 1 at West Stadium. Rangers will field first. You will only score Rangers side of the game.

Fill out the lineup from the roster supplied on the right.

You are only scoring the Rangers batting, however you will need to do the end of innings analysis, including the ball and strike counts. The pitches are marked in italics.

Assume that all fouls are to the catcher unless indicated by a notation after it (1B = 1<sup>st</sup> base line, 3B = 3<sup>rd</sup> base line, LF = Left Field, RF = Right field)

There will be times that you may need to make assumptions and make judgement calls about what to score. This should be based on your knowledge of game situations.

"Batter" will mean the batter in the box at the time of the play.

"Baserunner" will mean baserunner(s) on base at the time of the play.

"Batter/Baserunner" will mean the batter who then becomes a baserunner as a result of the play and making 1<sup>st</sup> base safely.

Substitutions and Fielding Changes notified by the coaches are indicated in italics. Changes are made using shirt numbers eg #3. Exception is for fielding changes where positions may be used.

The game commentary for answering this section is at the back of this answer booklet in the appendix. Detach it and use to answer on the scoresheet provided in this booklet.

### Game Scoring Section

Fill in the scoresheet with the lineup provided to you.

Score the game.

You are required to complete the end of innings analysis.

NAME:

### Section 3 Analysis

Analyse the game on the next pages in this booklet.

The end of innings analysis and part of the batting, pitching and fielding analysis has already been done for you. You will need to analyse the rest of the game, including the necessary batting, fielding, pitching and end of innings summaries.

If you are running short of time at this point, don't panic. If you rush you are likely to make silly mistakes. It is better to get most of it done with very few mistakes, than to finish it with lots of mistakes.

You can get more than half the marks allocated to this section by analysing one side of the scoresheet completely, because this gives you the chance to prove that you are able to do each part of the analysis.

The white dot in the middle of each run, is there for you to indicate earned runs. Colour it in if you work the run out to be an Earned Run.
